Who we are

Great Northern Growers (GNG) is a Western Canadian company with deep rural farming roots. Founded as an alternative to the traditional profit bloated input system, we act as a champion for the agriculture growers of Canada. GNG's primary focus is on making farming more profitable for producers. We do this by bringing global competition to the Canadian agriculture marketplace and providing farmers with access to high quality, low cost crop inputs.

Community 1st: STARS Emergency Services

GNG's *Community 1st* program is designed to assist rural communities, by donating a portion of their input purchases to local projects. In partnership with STARS, we are working with organizers to fund lifesaving-emergency helicopter services for rural areas.

GNG will donate a sizable portion of your purchase under this program. Given that most growers' input purchases over the year can run into the hundreds of thousands it is the hope of GNG that the program can cover the capital budget and provide much needed funds for STARS emergency services.

Contact

For all inquiries involving products, pricing, logistics, GNG, or Community 1st, please feel free to contact

Great Northern Growers Inc.

How Community 1st Works

It's that easy to support your local community.

Even if you don't farm yourself, many of us Saskatchewanians know farmers. We're family, friends, neighbors with farmers. GNG recognizes and supports the value of farmers and their contribution to communities.

Better yet – GNG makes it all *even easier* for farmers. **GNG will deliver your product at your convenience, to your yard. Free of charge.**

All you need to do is call.

When ordering, make sure to specify the project name: "STARS"

Great Northern Growers will handle the rest.
